

From Cells to Drugs

International Symposium on
Interventional Immunology

November 13 and 14, 2014
Regensburg, Germany

Bavarian Immunotherapy Network

Regensburg Center for
Interventional Immunology

Greeting

Greeting

Dear Colleagues,

On behalf of the Bavarian Immunotherapy-Network (BayImmuNet) we welcome you to the “International Symposium on Interventional Immunology – From Cells to Drugs” in Regensburg.

BayImmuNet was funded since 2008 by the State of Bavaria to support the development of novel immunotherapeutic strategies for the treatment of cancer, autoimmunity and infectious diseases. Bringing promising pre-clinical concepts into first clinical trials was the main goal of the consortium and its participants. The recent advancements in molecular and cellular therapies revealed the potency of such interventions and further boosted research in this field. During the symposium we will discuss current strategies in cellular therapy as well as future developments with internationally renowned experts in the field.

We thank all speakers, chairs and guests for participating in the meeting and hope you enjoy the symposium and your visit in Regensburg.

Reinhard Andreesen

Matthias Edinger

Program

Program

Thursday November 13

Art-Gallery "Leerer Beutel", Bertoldstraße 9

16:00 Registration and Coffee

16:30 Welcome

**16:45 Engineered T cells as a drug for
17:30 cancer therapy**

Carl June, Philadelphia

**17:30 Current status and future development of
19:00 cellular therapy**

Podium discussion with:

Ernst Rietschel, Berlin

Christoph Huber, Mainz

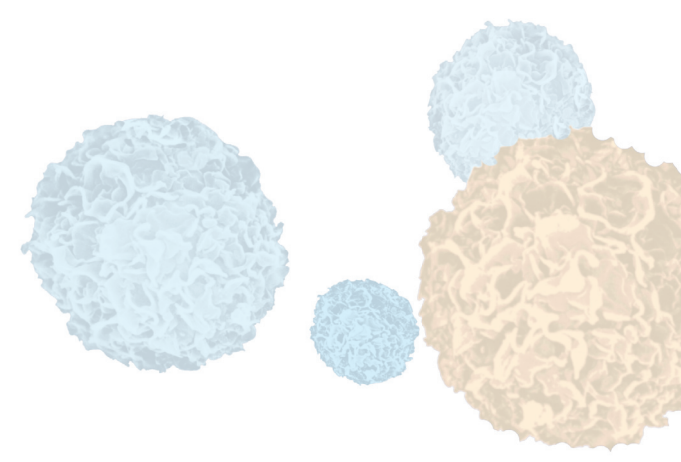

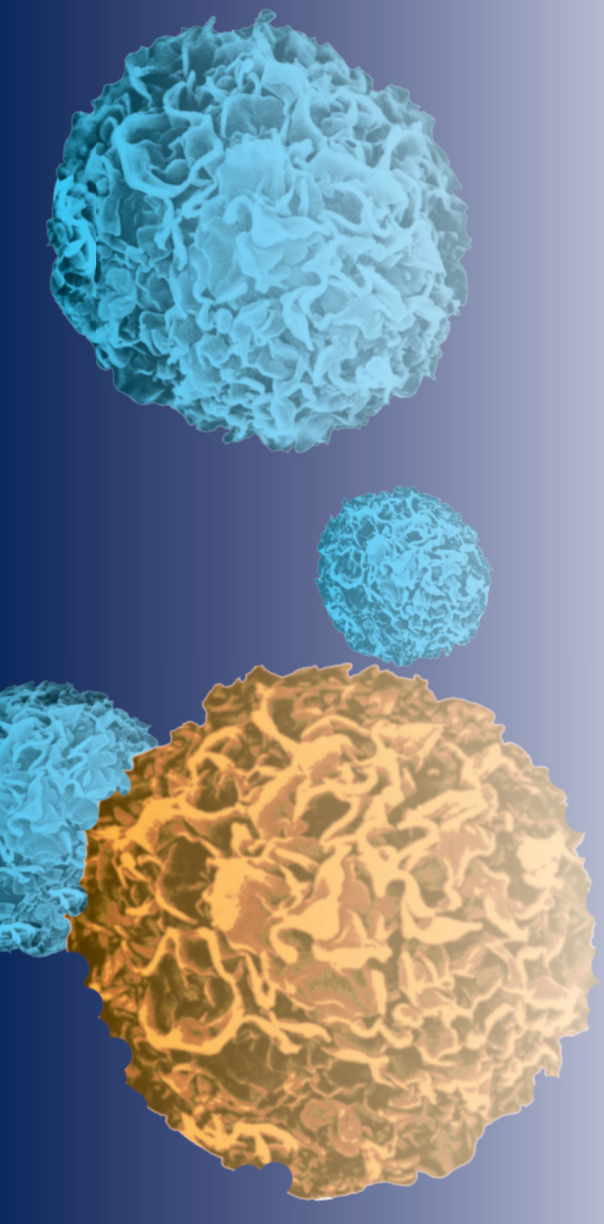

Carl June, Philadelphia

Klaus Kühlcke, Idar-Oberstein

Kai Pinkernell, Bergisch Gladbach

N.N. Novartis, Nuremberg

19:00 Symposium Dinner

Program

Friday November 14

“Thon-Dittmer-Palais”, Haidplatz 8

9:00 Welcome

09:15 – 10:30

Session I: TCR Transfer

9:15 The power of adoptive T cell therapy

9:40 Thomas Blankenstein, Berlin

09:45 Genetic control of T cell function

10:10 Hans Stauss, London

10:15 TCR-gene editing for the treatment of hematologic malignancies

10:40

Chiara Bonini, Milano

10:45 – 11:15

Coffee Break

11:15 – 12:30

Session II:

Bavarian Immunotherapy Network

11:15 Treatment of GVHD with donor regulatory T cells

11:30

Matthias Edinger, Regensburg

11:35 BiTEs – the other strategy to redirect T cells

11:50

Hermann Einsele, Würzburg

11:55 Next generation dendritic cell vaccine for immunotherapy of acute myeloid leukemia

12:10

Marion Subklewe, Munich

12:15 Adoptive Immunotherapy with memory B cells

12:30

Thomas Winkler, Erlangen

Friday November 14

“Thon-Dittmer-Palais”, Haidplatz 8

12:30 – 13:30

Lunch

13:30 – 15:00

Session III: Tumor Immunology

13:30 Improving T cell trafficking to tumors through low dose irradiation

13:55

Philipp Beckhove, Heidelberg

14:00 Development of individualized cancer immunotherapies targeting non-mutated antigens

14:25

Hans-Georg Rammensee, Tübingen

14:30 Adoptive Immunotherapy using lowest numbers of antigen-specific CD8+ T cells

14:55

Dirk Busch, Munich

15:00 – 15:30

Coffee Break

15:30 – 17:00

Session IV: TCR-Transfer

15:30 Engineering anti-tumor immunity at the interface of synthetic biology and T cell genetic modification

15:55

Michael Jensen, Seattle

16:00 To be announced

16:25

Phil Greenberg, Seattle

16:30 T-cell therapies for EBV-associated malignancies and beyond

16:55

Cliona Rooney, Houston

17:00 Summary and Farewell

Industry Exhibition

Scientific Committee and Support

Thon-Dittmer-Palais
Haidplatz 8
93047 Regensburg

During the symposium on November 14 there will be an industry exhibition.

Exhibitors:

Miltenyi Biotec

Miltenyi Biotec GmbH, Bergisch Gladbach

Novartis Pharma GmbH, Nuremberg

Scientific Committee:

Reinhard Andreesen

Matthias Edinger

Hermann Einsele

Wolfgang Herr

Andreas Mackensen

Daniela Männel

Christian Peschel

Dolores Schendel

Supported by:

Bayerisches Staatsministerium für
Bildung und Kultus, Wissenschaft und Kunst

Regensburg Center for
Interventional Immunology
